### Thank You

In these times of uncertainty, we want to thank all of the medical professionals who are putting themselves in harm's way in order to care for us. IVIR continues to support you through investigation and R&D efforts to enhance medical training and support your requirements.

### New IVIR Website

As times change, IVIR has grown with new services and technological advancements to best support our clients' needs. This expansion of skills, offerings and support is now shared on our new website. We are excited to invite you to take a look as our range and depth of capabilities. [New Website](#)

## Research

Military and civilian customers count on IVIR to provide innovative research through objective assessment, information visualization modeling and simulation technologies to uncover new insights regarding general and medical education applications.

## Preparation

IVIR's projects have prepared medics and corpsman for prolonged field care best practices. This included training and tracking the continuum of care for overall patient improvement. An example is a patient hand-off project that prepares the field for transitions in care. No matter what the task, our goal has always focused on the well-being of the patient. Preparation results in better outcomes.
